

PRODUCT REVIEW

WEN 3602 Orbital Jigsaw

While you're a wood-crafter, your very first priority is to get a working tool which is exceedingly perfect in shape, weight and accuracy as well as it should be easily affordable. The WEN 3602 Variable Speed Orbital Jigsaw can be your best choice in this regard. The tool comes up with a fine 6 Ampere motor which aims to boost your sawing activity. An excellent feature of six blades compatibility increases the precision of the cuts and allows you to craft in a stylish and desirable way. The best thing about the tool is that you can it has 4 orbital settings which allow you to work with any of the material. Whether it is wood, metal sheet, ceramic tile, or any of the hard substance, this jigsaw is capable to hold hands with it. The tool weighs just 5 pounds and has a great grip to hold on. You can comfortably change blades as it has a tool-less blade feature. Moreover, you can tilt the footplate up to 45 degrees to work more efficiently. You don't even have to worry about the saw-dust or debris because the

tool has a dedicated portion for the dust release purpose. Without any doubt, this tool could be your excellent companion due to its heavy-duty.
