

## **PRODUCT DESCRIPTION**

### **WEN-3962 Two-Speed Bandsaw**

The WEN Products Company has developed a topnotch Bandsaw appliance especially for the wood-craft purpose. The creative product having model name WEN 3962 Two-Speed Bandsaw is superlative in all of its aspects. The product having fine dimensions of 20x25x58 inches and the 3.5A motor has an ability to cut the wood stuff up to 6 inches depth and 9.75 inches wide. It has a double option for speed settings to execute the cutting jobs having capable speeds of 1520 or 2620 FPM. Moreover, the working surface area is of about 175 sq.inches. The blade length is 72 inches.

**Features:**

- 100% metallic body
- Two speed options for better cuts
- Pure Aluminum working area that can tilt through 45 degrees
- Muscular Motor of 3.5A
- Dust extraction portion with multiple hoses
- Variable blade size support from 1/8 inch to 1/2 inch of sharpness
- Miter gauge with sliding feature

**Pros:**

- High power motor
- Varying Cut Speed
- 73 pounds light weight
- Extensive support for wood-crafting
- Easy to maintain
- Affordable price

**Cons:**

- Body Vibration while working
- A little difficult to set up for initial use

**Customer Opinions:**

- Amazing Dust collecting capability
- Quick Tracking guide-wheels adjustment
- Cuts smoothly without leaving saw marks
- A little problematic when replacing blades

Summing up the qualities of WEN 3962 Two-Speed Bandsaw, we come to know that the tool could be exceedingly favorable and desiring for the wood-craft workers. No doubt, there are some problems, but this could be better than best to accomplish wood-working jobs.
