

## **PRODUCT DESCRIPTION**

### **SOLO 425 4-Gallon Professional Piston Backpack Sprayer**

The unique product namely SOLO 425 4-Gallon Professional Piston Backpack Sprayer is produced by one of the popular companies in the world known as SOLO Incorporate. It is a piston backpack sprayer introduced especially for gardening and lawn care purposes. The product weights up to 10.2 pounds having the dimensions of 9 x 20 x 15 inches. This backpack sprayer has a container that can hold about 4 gallons of fluid substance. It can produce outspread pressure of about 90 psi and is efficient to carry out almost any of the spraying jobs. The SOLO's 425 4-Gallon Professional Piston Backpack Sprayer comprises of a 28 inch shatterproof rod and a 48 inch nylon-supported high pressure generating tube. Both of these components are connected in a stable manner with each other for proper stretch out. The product is fabricated with a flow controller through which the sprayer can either be on or off depending on the user for the product's efficient use. Thus, reducing user exhaustion. With a verified piston pump, the user will be steadily outfitted and can easily spray liquid or insecticides in his garden or perform any of his relevant spraying jobs. The less number of enervating parts and the robust technology provides a trustworthy gesture and guarantees a life-time service, reducing the maintenance issues as more as possible. The large perforation is for the supportive filling of the reservoir and the smooth-running pump makes the spraying job more delightful and pleasurable. The user-friendly product design molds firmly to the user's back for greater comfort even when the tank is fully filled.
