

PRODUCT DESCRIPTION

Laguna MBAND1412-175 Resawing BandSaw

Laguna Tools has introduced a Resawing BandSaw of the highest standard. The MBAND1412-175 Bandsaw is examined as the solid and suitable in the market for wood-working tasks. Its versatility regarding fine cutting and the pure cast iron table-top surface makes it more demanding. The surface rotating capability of this tool has a cool variety. The sturdy 1.75 Horsepower motor and resaw capacity of 12 inches adds to the encouragement. Moreover, the product is CSA certified having dimensions and weight of 18x25x70.25 inches and 266 lbs, respectively.

Features:

- Exceptional blade length of 115 inches
- Steel body material
- Right Tilt angle: 45 degrees, Left Tilt Angle: 7 degrees, and Positive Stop at 90 degrees
- Micro-adjust capability with support of minimum 1/8 inch blade width
- Tracking and tension checks through double windows
- Throat-plate having area of 15 sq.inches with screw setting feature.

Pros:

- Durable Motor
- Variety of cutting angles
- Highly Adjustable
- Blade Speed Optimization
- Metal cutting capability

Cons:

- Heavier in weight which reduces transferability
- Slightly Expensive

Customer Opinion:

- The product quality is excellent, heavy metal, powerful base.
- Smooth running and very little vibration
- Fast and easy blade changing
- Ultimate design and highly featured
- Topnotch accuracy

Despite of its heaviness and expensive price, the quality and performance of Laguna MBAND1412-175 Resawing BandSaw is extremely top-most. It could be definitely accepted that the product is far better than the others in competition. We can consider it to be the professional level tool to accomplish wood-crafting as well as metal-crafting.
