

## PRODUCT DESCRIPTION

### “Apple Miscellaneous Products”

- **AirPods Wireless Kit 42**  
The Apple AirPods Wireless Kit 42 is a complete conjunction of chargeable AirPods and a wireless charging case. The best and extremely comfortable pair of AirPods that you can easily set up on any Apple device and enjoy desired music. The sound quality is seamless whether you play games or listen songs.
- **Apple TV 32GB 4K:**  
Apple’s 4K 32GB TV provides you with supreme quality graphics and approximately 4 times better pixels than the ordinary HD screen. The sensation of realistic and mesmerizing colors give a beautiful display of movies and videos from numerous apps like Netflix, YouTube, etc. The TV streams News and Live Sports too.

- **Apple TV HD:**

The Ethernet compatible Apple TV HD having 32GB of memory storage capacity gives an exceptional display of 1080p (HD). A compatible A8 chip and the vast platform support makes the device extraordinary. It supports different platforms like Netflix, Amazon Prime Video, ESPN, and much more.

- **Apple HomePod Mix 2018:**

Apple HomePod is a high grade audio output device (speaker) which has aimed super clash in the market against similar products. The Siri feature compatible HomePod has perfect sound quality that spreads all around the room. Incredible design, the A8 Chip, and six microphone array is what makes the HomePod super cool.
